

BUILDING ENERGY CODES

Big Savings for Minnesota

How do building energy codes benefit Minnesota residents?

- ✓ Lower energy bills
- ✓ Healthier indoor air
- ✓ Stronger state and local economies

If Minnesota updates to the Residential 2018 IECC, residents will save:

Consumer Energy Bill Savings
\$65,016,568

Total Energy Savings (MMBTU)
4,902,988

Total CO₂e Savings (Tons)
427,383

That's enough to:

Pay for **1,684** students to attend 4 years of college

Build **500** miles of new bike lanes

Buy **929** Tesla Model S electric cars

In CO₂e equivalent, that's like:

Powering **41,865** homes

Installing **98** new wind turbines

Removing **83,023** cars from the road

About MEEA: The Midwest Energy Efficiency Alliance (MEEA) is a collaborative network focused on advancing energy efficiency in the Midwest for sustainable economic development and environmental stewardship.
